

COVID 19 - Use of the Clubhouse

Members will be allowed inside but only under the following conditions: -

(i) Use is restricted to formal club sessions only. Anyone using the courts outside these sessions can only enter by the rear door to use the nearest toilet or access the first-aid kit. The time between club sessions, together with the cleaning regime, will ensure that the main room is virus-free.

(ii) Only the main room plus the toilet next to the back door are to be used. The disabled WC is locked as are the changing and store rooms. If you use the WC, clean it before you leave.

(iii) In the main room the kitchen will be “out-of-bounds”. The outside tap can provide drinking water etc. if required but you must use your own container. The dart board, selection board, book exchange and any other ancillary facility should not be used.

(iv) Do not take your playing kit into the building.

(v) Use the hand sanitiser before you enter the building. Apart from being located at each court entrance it is provided inside the porch for members to use before they unlock and again when they leave.

(vi) Use of the building will be restricted to ‘operational’ matters such as accessing equipment and providing shelter. The four bi-fold doors should be opened to maximise ventilation when members are inside.

(vii) The last member to leave should lock up and wipe the door handles etc.

(viii) Remember to sign the attendance sheet. This is now a Covid-19 requirement to assist the ‘NHS Track & Trace’ process.

Generally it is still best to avoid using the building and some players will probably choose not to enter at all except to sign in.

In all circumstances, indoors and outdoors, you must comply with the 2m social distancing requirement.
